

TRAILBLAZERS *Green*

Vermont Works for Women's Trailblazers: Green training program prepares women and gender-expansive individuals for careers in the growing renewable energy sector.

Trailblazers provides a safe, non-judgmental environment for participants to build skills, gain confidence and explore fields that tend to be male-dominated. Women and gender-expansive folks ages 16 years or older, including high school and tech center students, are encouraged to apply; no experience necessary!

Trailblazers includes:

- Seven weeks of free hands-on training (held evenings and Saturdays) covering core renewable energy, construction, electrical, and HVAC skills, led by women
- Nationally recognized certifications (NCCER Core Curriculum, OSHA 10)
- Access to mentors, job shadows, onsite work experience, and networking support

This training is for you if you want:

- Skills that can lead to jobs in high-demand sectors
- A great job that allows you to work with your hands and see results
- The stability of a career pathway leading to salaries of \$60K, plus benefits
