

Keys to Success for Workshop & Action Expo

Here are a few tips that can help you put together a fun, engaging, activity at Women Can Do! We are happy to support you in any way we can. Please let us know if you need help as you finalize your activities.

- **Safety first.** Students must follow all safety procedures and wear all safety gear according to best practices.
- **Share your story.** We hope you will share what you like about your line of work, what education or training is necessary, and how much students might expect to make if they enter the field.
- **Clear, simple instructions.** Break down difficult tasks to one step at a time. Visuals are very useful.
- **More doing, less talking.** The more time the students are busy doing things with their hands, bodies, voices and minds, the better.
- **Engage everyone.** If there are some activities that only a few students can do at a time, it helps to be prepared with an activity that the others can do while they're waiting so that they aren't just standing around.
- **Let us know how we can support you!** We are happy to help you at any step of the process, whether it's leading up to the workshop or the day of. Please let us know what sort of support you need from us.
